 Ocean	 Blueberry	 Warm yellow	

OUR PRINTING TECHNIQUES

DTG

Screen printing

Embroidery

new

DTT - roll to roll

Pigment printing is an ecological solution. It is suitable for printing on cotton. The inks used in printing are water-based, compliant with the requirements of GOTS 6.0 and OEKO-TEX® 100 certificates. The printed pattern is fixed with temperature, without the use of chemicals, but above all – without the use of water. Pigment printing is an ecological solution.
